

CRA Timestamp Bundle — 2026-10-02

Status: local preparation only; not committed, published, signed, or broadcast.

Purpose

This bundle preserves selected repository-resident artifacts verbatim with source repository, path, commit-path SHA, byte count, and SHA-256. It is an evidentiary packaging aid, not an independent legal finding or authorship adjudication.

Source repositories

- `cmiller9851-wq/CRAprotocol`
- `cmiller9851-wq/lex_sovereign_intelligence`
- `cmiller9851-wq/cra-protocol-v2.1-validator-sync`

Contents

- `source/proof/authorship_declaration.json` — `cmiller9851-wq/CRAprotocol` / `authorship_declaration.json` — 1023 bytes — SHA-256
`215baa29de0f6372e08e564b92a0c80e9a4b04b54c12c73e7474a822dcb45b39`
 - `source/declaration/Sovereign_Declaration_0618.md` — `cmiller9851-wq/CRAprotocol` / `Sovereign_Declaration_0618.md` — 264 bytes — SHA-256
`ef69db3caf949cf395e4a5ca3148c78d51bbb5386188336ad3134d3c568c2b09`
 - `source/declaration/Sovereign_IP_Master.md` — `cmiller9851-wq/CRAprotocol` / `Sovereign_IP_Master.md` — 314 bytes — SHA-256
`efa1bd22d22392aabb35063f35c56afaab8628e9d32f1c336baf8e06d9356b69`
 - `source/declaration/AFFIDAVIT_OF_SOVEREIGN_STANDING.md` — `cmiller9851-wq/CRAprotocol` / `docs/AFFIDAVIT_OF_SOVEREIGN_STANDING.md` — 348 bytes — SHA-256
`f1fe864a745de448e0435f1fb2f15b73557f8397f0f2abe9b65a5e82c8f7b6a3`
 - `source/manifest/supreme_manifest.json` — `cmiller9851-wq/CRAprotocol` / `manifests/supreme_manifest.json` — 2784 bytes — SHA-256
`a10096e24c270d74fd264ebdb98bffeaf44599d52bf0a0ab6010b4864511ddf7`
 - `source/manifest/CRA_MANIFEST.json` — `cmiller9851-wq/CRAprotocol` / `CRA_MANIFEST.json` — 148 bytes — SHA-256
-

- appendix/repository-sync-log-pasted_content_2.txt — user-provided attachment / pasted_content_2.txt — 15308 bytes — SHA-256 bea0d5266d99d9a7788568a0607c36c13fede7712ce7c9eb9e2cb34ed0df2c72

Integrity procedure

Recompute with:

```
find source appendix -type f -print0 | sort -z | xargs -0 sha256sum
```

The exact index is in `SHA256SUMS.json`.

Material gaps

- A repository-resident 2009 proof/work artifact was not identified in the inspected trees.
- A canonical X post URL was not identified; the audit mirror records the X handle @vccmac but is not itself proof of a specific post.
- The affidavit file is a repository placeholder stating that full original formatting may be separate.

Publication boundary

This bundle has not been pushed to GitHub, posted to X, uploaded to Arweave, or sent to any third party. Those are separate external actions requiring explicit confirmation and, for Arweave, a wallet signer and target details.
